

### Program Registration & Fees:

The operator training program has changed the registration process to an electronic format that facilitates online registration and payment options, including credit cards. This format also allows participants to create and manage their own student records to track class participation and print completion certificates.

The online method must be used to register for all wastewater operator training workshops. No paper registration forms will be accepted; however payment by check will still be acceptable option.

### Virginia Learning Center (VLC) Registration:

DEQ's Virginia Learning Center (VLC) is an online Learning Management System that can be used to enroll in classroom courses, launch online training and access other useful learning resources. If you already have a profile in the old knowledge center (KC) database, use your username and password to login to the VLC.

In order to create your profile in the VLC, kindly follow the link below:

<https://covlc.virginia.gov>

Once a profile has been created and an online ID has been selected you will be granted access to the VLC to begin monitoring your training activities.

For additional information regarding the Virginia Learning Center or the registration process contact the Operator Training Program staff:

### Program Content:

Current programs have been selected based on identified needs and location availability. These programs and others are offered periodically, at different locations, throughout the year. If you would like to receive notification, by email, contact the operator training program staff.

Complete descriptions of the training programs are available on the DEQ Knowledge Center.

### Program Approval:

Unless otherwise noted, these courses have been approved by the Virginia Board for Waterworks and Wastewater Works Operators and Onsite Sewage System Professionals for training credits. Approved programs can, when applicable, be used as substitution for required operational experience.

### Continuing Professional Education (CPE):

Where appropriate, these workshops can be used for continuing professional education (CPE) requirements as defined by the Board. Registrants will typically receive up to 7 contact hours for each full day of completed training and 3.5 contact hours for each ½ day of completed training.

A full day is defined as 8:30 am – 4:30 pm minus 1 hour for lunch. A ½ day is defined as 8:30am – 12 noon (or 1:00pm – 4:30pm).

### Additional Information:
